## **Special Note - Career Pathway Mentoring Center**

**Organizations can sponsor and place non-managers or young adults of parent employees in our [Career Pathway Mentoring Center](#) to target their next position and obtain it. The targeted position could be inside or outside the sponsoring company. An assignment to the Center can be considered either an outplacement or in-house career consulting request. The Center is part of the [Career Pathway Mentoring Institute](#) which works with organizations to build an in-house career mentoring program to help individuals identify and use their potential to become the best at what they're doing to advance their career and the organization. Our model program increases individual and team performance and employee retention.**
